RE: Notification of Waste Grease Certificate of Registration Number
 cc: SW JFR 123 3.12.1

Dear Brooke M. Green:

The Hazardous Materials and Waste Management Division, Solid Waste and Materials Management Program of the Colorado Department of Public Health and Environment has received a Waste Grease Certificate of Registration Application (Form WG-1/WG-1R) from your business for the following location:

Environmental Hazmat Services
 4745 Independence St.
 Wheat Ridge, CO 80033

Certificate of Registration Number: 123
Registration Expiration: July 15, 2020

In accordance with state regulations, the Waste Grease Certificate of Registration Number listed above has been assigned to above referenced location and is valid until July 15, 2020, at which time, you must renew your registration in accordance with Section 18 of the Colorado Solid Waste Regulations (6 CCR 1007-2, Part 1). Also note that a copy of this Certificate of Registration must be retained at your location/principal place of business.

Your location has registered as the following:

- Waste Grease Transporter**

 Waste Grease Facility
Personal User of Waste Grease other than for use as Biofuel

Any change in location would require a new Waste Grease Certificate of Registration Application (Form WG-1) to be filed, as Certificate of Registration Numbers are location specific. Failure to have a Waste Grease Certificate of Registration Number for a new location or use of the wrong Waste Grease Certificate of Registration Number for shipment of waste grease may result in enforcement action under §30-20-113, et seq, of the Colorado Revised Statutes (C.R.S.), and Section 18 of the Colorado Solid Waste Regulations (6 CCR 1007-2, Part 1). Also, in accordance with Section 18 of the regulations, if there are changes in any of the following, this office must be notified in writing at the Cherry Creek address above: 1) mailing address, 2) business/individual name, 3) type of registration, 4) contact name or phone number, 5) ownership, or 6) the site has closed or no longer handles or transports waste grease.
